

# Searching Tax Records

To access public property data, select **Search** from the top menu and choose **Search Tax Records**.

- The USA Property Record Search allows you to locate properties by entering details such as street number, street name, city, state, ZIP code, property type, or owner name.
- You can further refine your search using filters such as sale **date range** and **minimum or maximum price**.
- Click **Search** to view matching public records.

2006-04-20				# Parcels: 1 Special Warranty Deed Date: 2006-04-19

### Reviewing a Property Record

Select a property address hyperlink from the results list to open the full public record. From the record page, you can:

- **Import This Record** to create a listing using public data (the listing will be saved in your hidden/draft listings)
- **Add to CMA** to include the property in a Comparative Market Analysis

If needed, use the **Back** button to return to your search results and adjust your criteria.
