

Updating Your Profile

Updating Your Profile

Your **My Account** page is where you manage your membership details and public profile in MyStateMLS.

From here, you can update your contact information, change your email or password, and upload a profile photo so clients and other agents can recognize you.

Keeping your profile up to date (and **with a PHOTO**) helps you build credibility and receive more leads through the platform.

For added security and better lead support, we recommend enabling **Multi Factor Authentication** and opting in to receive **text messages for leads and notifications**.

These features help protect your account and ensure you never miss an important opportunity.
