"Material facts" are defined as "any fact, defect, or coordination, past or present, that would be expected to measurably affect the value to a reasonable person of the residential real property being offered for sale." This Disclosure Statement is intended to assist Seller in organizing and presenting all material facts concerning the Property. **H. FURTHER CONDO NOTICES TO BUYER:**

UNIT MODIFICATION & LANAI ENCLOSURES: If Buyer is contemplating enclosing a lanai or making other modifications to this Property, an attorney, architect or other professionals knowledgeable in such matters should be consulted first. Obtaining permission to make enclosures or other modifications may involve more than approval by the Association’s Board of Directors. Approval may be complex and may require approval from the City & County Building Department.

RESERVE STUDY: State law requires certain common interest properties to perform a study and make projections of upcoming maintenance expenses for the common elements. The Association must set aside appropriate reserves for those needs. Currently, there is no standardized reserve study. Some studies are very short and simple, while other are long and complex. Some properties may have a summary of the reserve study. It is recommended that BUyer obtain a copy of the summary of the reserve study or if unavailable, the reserve study. Buyer should read the information and seek the guidance of an attorney, accountant and/or other competent professionals to analyze its contents.
